

# Keeping Inventory On Track Isn't as Simple as Checking the Weather

When it rains, it pours. And when it does, you need to know where your shipments are. It's time to rethink supply chain management with AI and machine learning.

# Go Beyond Forecasting with Luminate Planning

Digital commerce is changing at lightning speed, and thanks to the Amazon effect, consumers have more product choices and even higher expectations.

Our AI and machine learning-powered digital fulfillment platform makes it easy to shift to an omnichannel approach without sacrificing speed, availability, or personalization.

# Never Miss What's On the Horizon with Luminate Control Tower

You can't improve what you can't see. The Luminate Control Tower maximizes margins and minimizes cost-to-serve with an always-on, predict-and-pivot approach that takes advantage of real-time inventory visibility and directed task management.

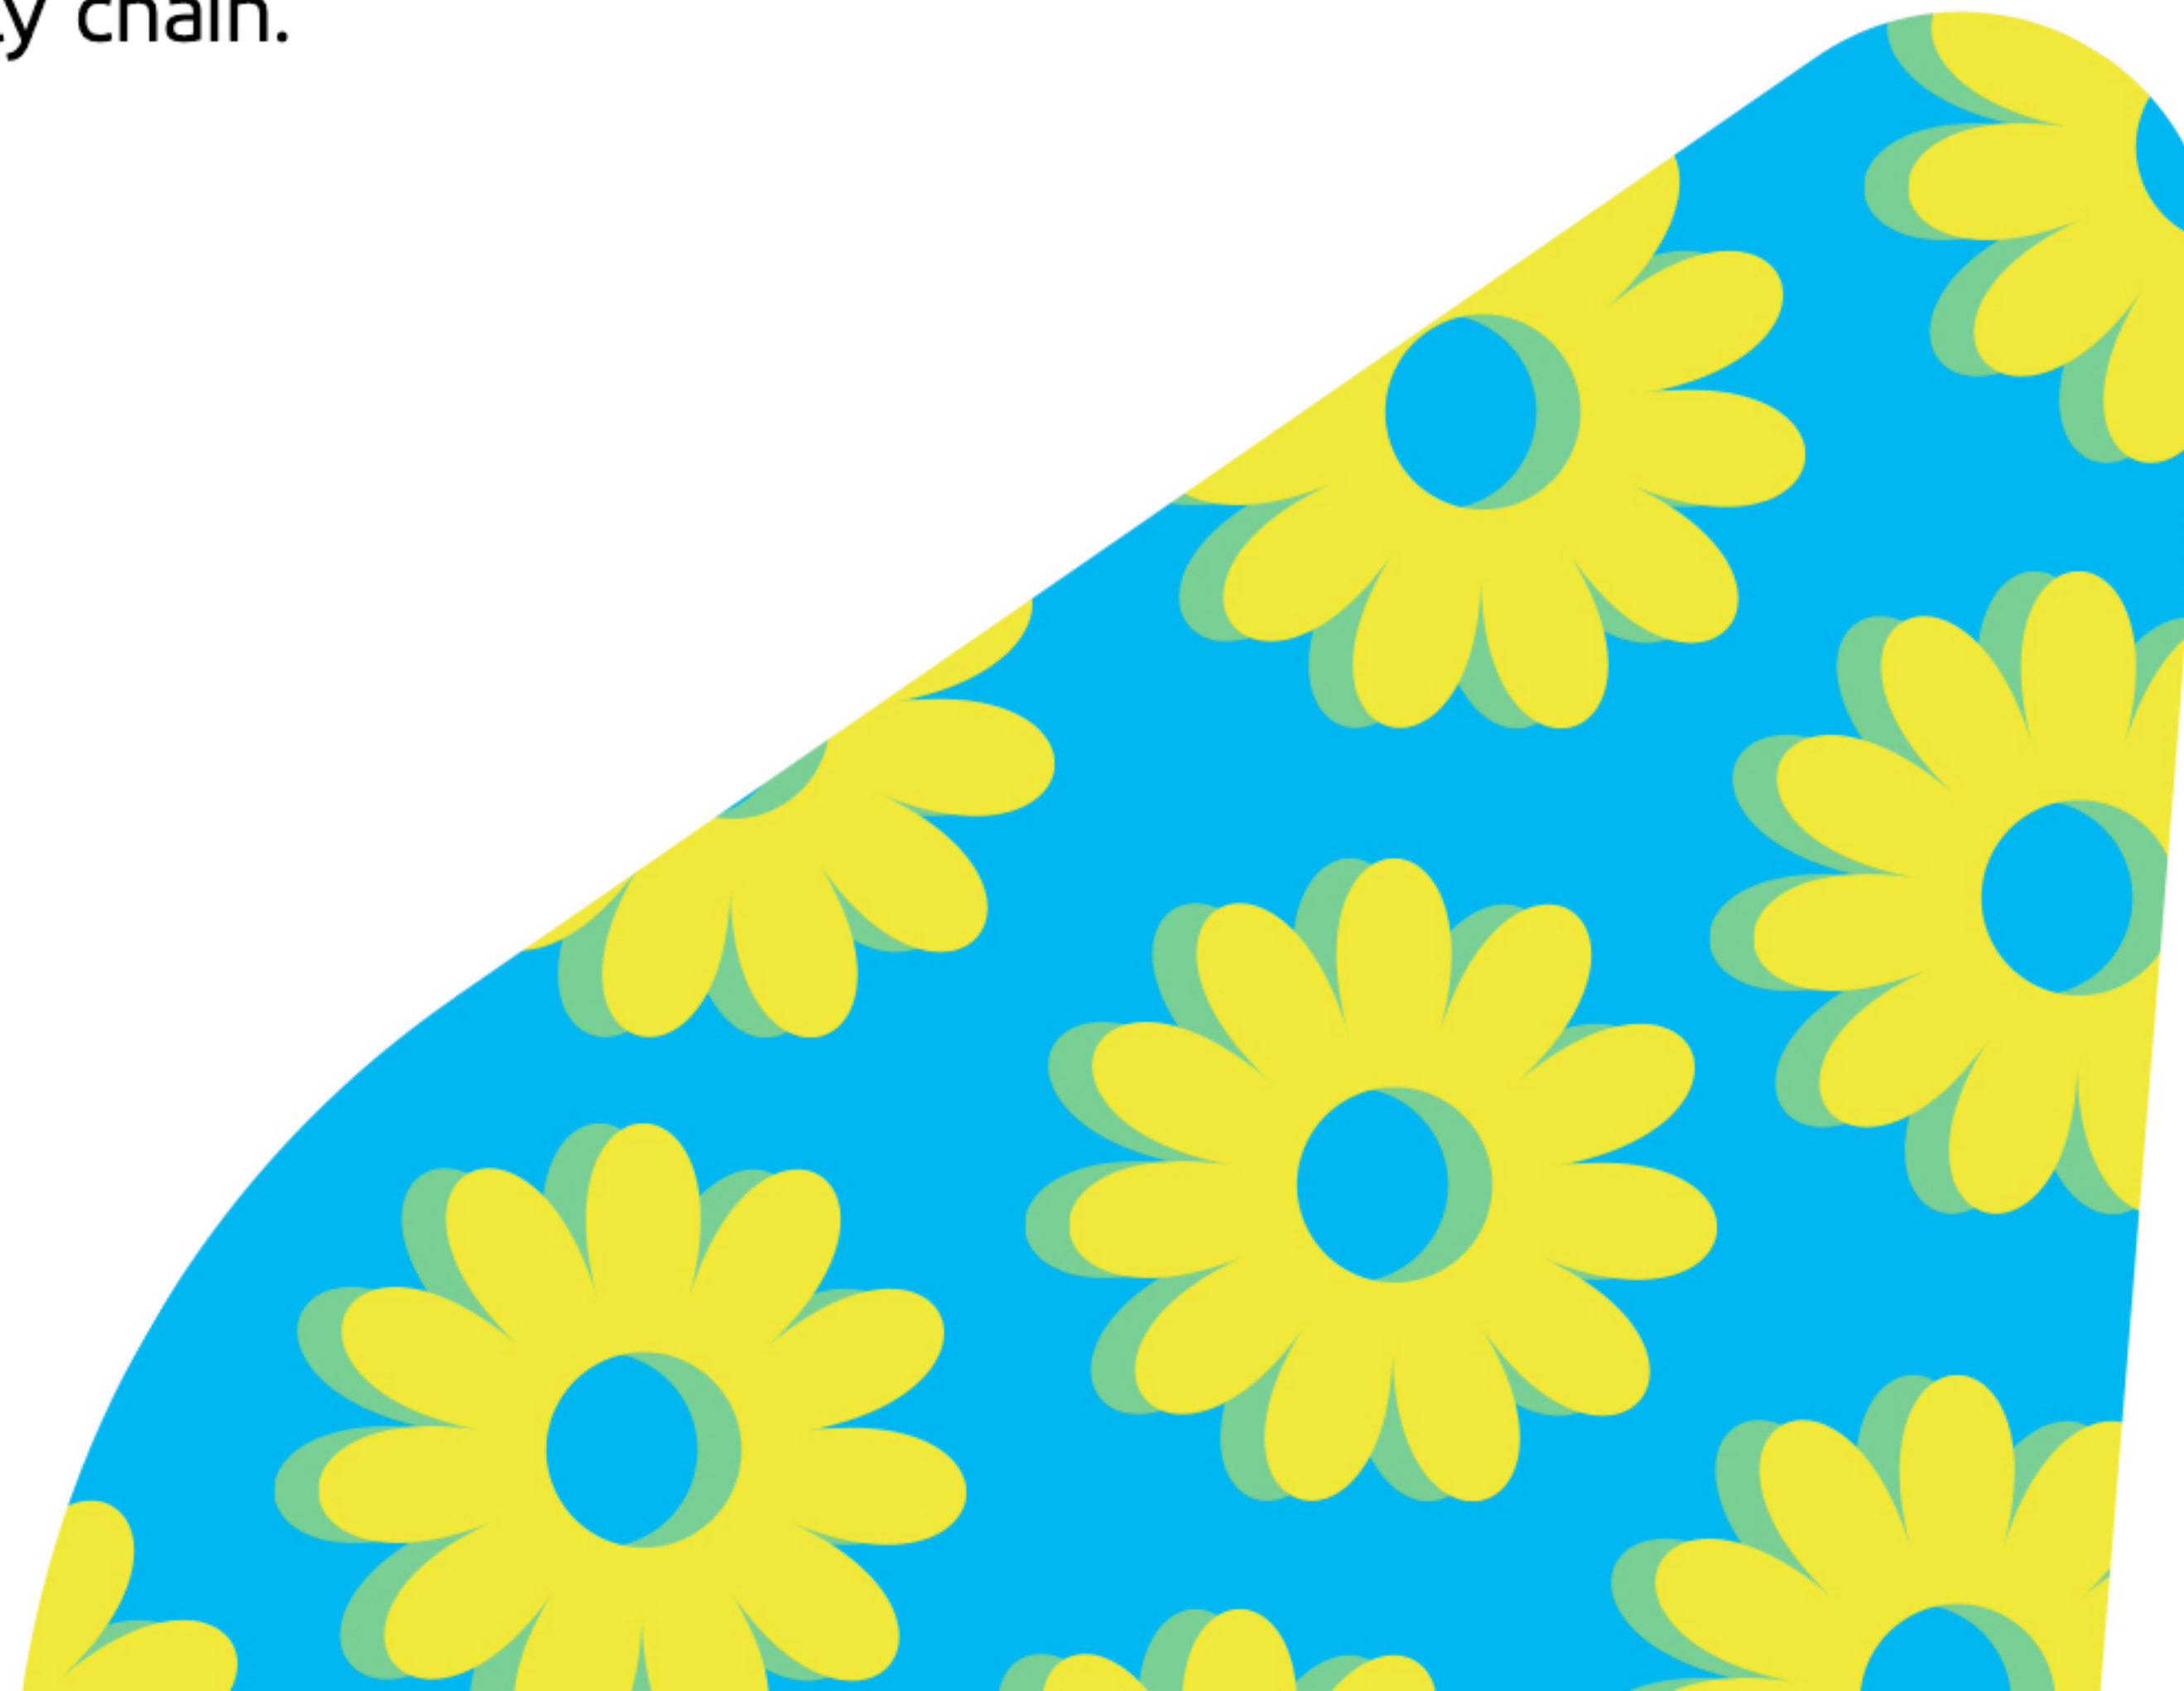

# Blue Yonder's An All-weather Friend
